Maybe even better than free.

You decide who you want to share your files with. So try our free and simple filehosting service now. There are no restrictions on the number of times a file can be downloaded. Files can be downloaded from any computer from our high speed servers. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can upload any type of file (movies, music, documents, images, zip files and more). Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Any file in any format can be uploaded and downloaded for free. filehosting provides an easy possibility for you to send large files to your friends. Alternatively you can choose to share your download links on blogs, forums and social networking sites. We have no file size limit. File is free to use with no gotchas and no hidden fees. If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely free for everyone. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. You can give thisdownload link to your friends by mail or instant messenger. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costingyou money in data storage fees. Using file, you can circumvent those limits without paying to upgrade your team chat service. Just upload the file you want toshare with your friends and we send you a download link to your file. No account or credit card is required to get started. It is also allowed to link to thedownload page from websites and communities. The cost of that data transfer is covered by your internet service or the data plan on your phone. Why paystorage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferredwithin their apps. You don't need any special software installed to be able to download your files. When you use file, you avoid storing the file you're sendingin your cloud storage or mail server. Unfortunately, we can't make that part free.
